PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience building clean, responsive, and production-ready user interfaces using HTML5, CSS3, JavaScript, and React.js (2+ years). Strong background in UI engineering, layout systems, and responsive design, with hands-on experience across CMS platforms including Drupal and WordPress, as well as freelance frontend consulting projects.

Experienced in translating structured content and design systems into consistent, high-quality interfaces with strong attention to spacing, typography, responsiveness, and overall user experience. Skilled in component-based frontend development, API integration, and building maintainable UI architectures using modern frontend practices.

Additionally working as an AI Data Annotator / AI Training Contributor for the past 1.6+ years.

CORE SKILLS

Frontend & UI Engineering:

HTML5, CSS3, JavaScript (ES6+), Responsive Design, Mobile-First Development, Flexbox, CSS Grid

Layout & Styling:

Spacing Systems, Typography, Layout Consistency, Cross-browser Compatibility

CMS:

FE Drupal Themer (Production Experience 2+ years), WordPress (Working Knowledge)

Modern Frontend:

React.js (2+ years), Component-Based Architecture, REST API Integration

Tools:

Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

AI Data Contributor / Tier 1 Coder (Contractor)

Outlier AI — Remote

****11/2024** – present

- Contributed to AI model training and evaluation using RLHF and SFT methodologies, focusing on improving response quality and alignment with human preferences.
 - Worked extensively on the Aether project, performing response evaluation, preference ranking, instruction-following assessment, reasoning analysis, and guideline-based quality reviews across generalist tasks.
 - Applied strong attention to detail to ensure accuracy, consistency, and adherence to project requirements.
-

Frontend Developer (JS-heavy Drupal Theming – Contractor)

ConstructAfrica (via MSTechLabs) — Remote

07/2023 – **04/2024**

- Led frontend implementation for two business platforms, focusing on clean, responsive, and production-ready UI.
Platform: <https://constructafrica.com>
 - Built and refined responsive layouts using Drupal theming, with strong emphasis on spacing, structure, and consistency.
 - Developed reusable UI components and handled dynamic frontend behavior using JavaScript within Drupal templates.
 - Ensured cross-browser compatibility and maintained clean, responsive scalable styling across the application.
-

Senior Frontend Engineer (HTML5 / CSS3 / JavaScript / Svelte)

Able.do (formerly Uncommon Design Services) – Remote | Hyderabad

08/2022 – **07/2023**

- Built the Able platform using modern JavaScript and Svelte with custom JavaScript-driven animations.

Platform: <https://www.able.do/>

- Worked on a second animation-heavy project for **Keus**, implementing complex UI animations using **GSAP** and selective **Three.js-based motion effects**.

Platform: <https://www.keus.in/>

- Implemented responsive, mobile-first layouts and performance-optimized UI components.
-

Frontend Developer L2 | React.js, Drupal Theming

Axelerant — Remote

02/2021 – 08/2022

- Built responsive, scalable UIs using Drupal theming and ReactJS for enterprise clients like [OHCHR](#)
 - Built reusable components and layout systems for enterprise applications.
 - Applied accessibility and SEO best practices to frontend implementations.
-

Software Development Engineer | React.js

GiveIndia Pvt. Ltd. — Bangalore, India

02/2019 – 02/2020

- Developed features for [GiveIndia](#)'s online donation platform using ReactJS, focusing on reusable components, state management, and enhancing performance for high-traffic donation flows.
 - Integrated REST APIs with React/Next.js into UI workflows.
 - Collaborated with backend teams & UI/UX designers to integrate and handle REST APIs, ensuring seamless data flow, error handling, and reliable user interactions across critical donation journeys.
-

Software Engineer | React.js

Photon Infotech Pvt. Ltd. — Bangalore, India

08/2018 – 02/2019

- Contributed to [Photon's](#) corporate website using **React.js** and **Next.js**.
 - Implemented UI components aligned with corporate branding and design systems.
-

Software Associate

IBM India — Bangalore, India (via Express IT Pvt. Ltd.)

11/2016 – 10/2017

- Worked for US telecom brand Boost Mobile which is now <https://www.telecompetitor.com/>
 - Primarily used HTML5, Bootstrap, JQuery for feature patches and component creation.
 - Did CSS changes, Bug fixes, performance optimizations and gained real world exposure to SaaS products.
 - Refactored legacy UI components and styles, improving responsiveness, code maintainability, and ensuring consistent user experience across devices and browsers.
-

CERTIFICATIONS & COURSES

- **Generative AI for JavaScript Developers** – CodersGyan (Ongoing)
Focus: AI APIs, prompt engineering, and AI-powered web product development
02/2026 – Present
 - **Google Prompting Essentials** – Coursera
Focus: Prompt engineering and effective use of AI tools
03/2025 – 07/2025
 - **Meta Frontend Developer Professional Certificate** – Coursera
(9-course professional program with final certification)
07/2024 – 01/2025
 - **Acquia Site Studio Site Builder Certification**
Focus: Component-based theming and Drupal site building
07/2022 – Present
-

VENTURE & SIDE PROJECT

Software Engineer & Founding Partner (Part-Time)

Velocity Kashmir Tour & Travels (V2)

04/2024 – Present

- Solely responsible for the [Velocity Kashmir Website](#) **end-to-end**: frontend development, backend form handling, deployment, and maintenance.
- Built responsive, mobile-first UI using **HTML5, CSS3, and JavaScript** and PHP for form handling and capturing data.
- Deployed and manage the production website on **Hostinger**, including updates and configuration and handle ongoing updates.

EDUCATION

Bachelor of Engineering – Computer Science

SSM College of Engineering & Technology
